Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am a 'small time' wireless user... I don't make interstate calls and don't feel I should be charged so that someone else can. I am comfortable with my current (TracFone) service because I only pay for what I use. I do not wish to pay more for my own service so that someone else doesn't have to pay as much to cover their excessive interstate usage. Charge the people who use the service, not those who don't.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
